

Kartik Dhomne

Senior Frontend Engineer | React • Next.js • TypeScript | Open to Visa Sponsorship

+91 8208463693 - [Portfolio](#) - [Email](#) - [LinkedIn](#) - [GitHub](#)

SUMMARY

Senior Frontend Engineer with **4 years** of production experience delivering **15+ international projects** for a global pharmaceutical group across the UK, Italy, the USA, and Canada. Specialized in compliance-grade frontend engineering — GDPR consent flows and WCAG 2.1 AA accessibility standards across 18 countries — with proven performance impact (**75% load time reduction**). Experienced working within distributed UK/EU teams on high-traffic healthcare platforms, with a background in analytics-driven development driving measurable engagement gains.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3 (SCSS)

Frameworks & Libraries: React.js, Next.js, Redux, Context API, React Router, Tailwind CSS, Bootstrap, Framer Motion, Lottie, Node.js

Backend & APIs: REST API Design, API Integration, Contentful CMS, MongoDB

Tools & Platforms: Git, GitHub, Bitbucket, VS Code, Jira, Vercel, Netlify, Figma, BrowserStack, Lighthouse, WebPageTest, React Testing Library with Vitest

Core Expertise: Performance Optimization (Code-splitting, Lazy loading, Caching) • Web Accessibility (WCAG 2.1 AA) • Page SEO • Cross-Browser Testing • Responsive Design

WORK EXPERIENCE

Senior Frontend Engineer

AccelerateBS, Ahmedabad, Gujarat, India

July 2022 – Present

- **Performance Optimization:** Reduced page load time from **8s** → **1.5–2s** (**75% improvement**) across **10+ healthcare platforms** serving **7.5K+ monthly users** and **15K+ sessions**, using code splitting, CDN delivery, WebP asset conversion, and bundle optimization. Improved Lighthouse scores from 65 to 95 (**+30 points**), driving an **18% reduction** in user drop-offs.
- **Compliance-Grade Frontend:** Delivered **15+ production projects** for pharmaceutical and healthcare clients across the **USA, UK, Canada, and Italy**, including geo-fencing-based routing across **2 platforms** to ensure FDA digital content compliance across **18 countries**, and GDPR-aligned cookie consent flows meeting EU and North American requirements.
- **Mentorship & Code Quality:** Conducted regular code reviews and mentored junior engineers and interns, raising code quality standards and accelerating ramp-up time for new team members.
- **Analytics & Engagement:** Built end-to-end user behavior tracking with GTM and Google Analytics across platforms with **4K+ monthly users** and **6.7K sessions**; identified high-engagement flows (avg. session duration up to **40 minutes**), enabling data-driven UX optimizations.

Web Development Bootcamp Intern

Newton School, Remote

October 2021 – May 2022

- Built and shipped responsive UI components and **REST API** integrations in **React.js** as part of an intensive coding bootcamp, working on real client/product-style projects under senior engineer code review and Agile workflows.

Production Engineer

Funskool, Goa, India

August 2019 – December 2020

- Worked in manufacturing operations before transitioning into software engineering in 2021.

PROJECTS

- **Getivity – Project & Time Tracker** getivity-stage.com
 - Enhanced a client/project management tool using **Next.js**, **React.js**, **Chakra UI**, and **Contentful CMS**; implemented task assignments, time tracking, and project management features with 15% bundle size reduction via code-splitting.
 - Leveraged Next.js API routes, dynamic routing, and SSR to support **500+ users** managing **1,000+ projects**.
- **Filsuvez – Medical Info Platform** filsuvez.com
 - Developed a responsive medical web portal using **Next.js**, **Tailwind CSS**, and **Framer/Lottie Motion**; achieved **100% WCAG accessibility audit score**.
 - Optimized Core Web Vitals (LCP 2.1s, FID 45ms, CLS 0.08, Lighthouse 90/100), serving **5,000+ monthly users** globally.
- **BrightDrop – Logistics Web App** brightdrop.com
 - Built a modern logistics dashboard using **Next.js**, **React.js**, **Tailwind CSS**, and **Framer Motion** with 20+ reusable components.
 - Achieved **45% faster data rendering** and **2.8s load time reduction** through component-level performance optimizations.

EDUCATION

Nagpur University

Bachelor of Engineering (CGPA: 8.38 / 10.0)

Nagpur, Maharashtra, India

Jul 2015 – May 2019
